Introduction

Hello and welcome. What you are about to embark on is one of the most exciting and new beginnings you will love and enjoy for a long time to come. That is unless you are not truly into your art. The levels you will be able to take your rhymes to are unstoppable, unimaginable. This is truly a beginning of many wonderful adventures for you. If you truly are a student of this game and love to practice, write and create wonderful songs using words and phrases. Then this is just what the doctor ordered.

My Name is Jamaal West A.K.A. J-Mill. I came up with this book many years ago. Be sure to visit the website www.how2rap.com. There you will find many new and exciting features. The site is for everyone especially if your a artist producer or model, you should really like the site. If you have any suggestions or questions by all means hola at the kid. Also I have left my email address within these pages so you can contact me at anytime. I will return all emails just make sure you type How To Rap Manual in the subject. I get so many emails a day that I delete those that I think is junk mail. I also have Cd's on the website that you can purchase of me and all the different styles that I laid down from using this manual. Check them out as well. You won't be disappointed because like I said I have been doing this for years so ya boy is far from whack.

I have many different styles but there are so many that haven't been tapped yet. You could be the next to find them. I added some extra pages for you to practice your skills but I would advise you to invest in a notebook so you can practice your rhymes in. I have at least 50-60 of these laying around from front to back. This book was actually written in one of them. But enough about me. I truly hope you enjoy this for many years to come. Now lets begin.

This is it, the first ever of its kind. Drum roll please. And without further a due I would like to introduce...**"The Official How To Rap Manual"**. With this manual you will learn to make songs you never believed you could make. You will take your rhyme skill to heights unimaginable.

With **The Official How To Rap Manual** you have the potential to take your rhymes to a level you never believed you could. You will be putting together rhyme schemes you never knew existed. Only a person with greed would want these for their self. This one book could make you millions in the music biz. Or at least a million rhymes and then with the right connections then. You get the picture.

In this remarkable creation you will learn about consonants, poetry, phrases, and pronouns etc. to take your rap game to a whole new level. That's just a few of the things you will learn in this wonderful opportunity. Be the wittiest with the most vocabulary or with styles that most people never even heard before. Now is the time if you are truly serious about becoming a student of this game. One thing I learned about this game or life in general and that is time waits for no one. So you gotta get it when you can. Feel me?

Break out your rap book and your Instrumental CD(Also available at www.how2rap.com) and begin to see the unbelievable potential of "**The Official How To Rap Manual**".

In the following two chapters you will learn about word sounds and grammar. This information is very important in your quest for knowledge in this game of rhyme and reason. Communication plays a big part in Hip-Hop so one of the most important things that you will need to create in your lyrics is wordplay so lets start with grammar.
